What is "Civility"??

Clearly, civility has to mean something more than mere politeness. The movement will have accomplished little if all it does is get people to say, "excuse me please", while they (figuratively) stab you in the back. Civility also cannot mean "roll over and play dead."

> - <u>The Meaning of Civility</u> Guy & Heidi Burgess, 1997

Organizational Communication

- Pro's & Con's
- ➢ Perception v. Reality
- Maturity, Pettiness & Personality Conflicts
- ➤ Are you "Open for Business"??

VI. "<u>Open for Business</u>"

• "Open-mindedness" & Opening Lines of Communication

• Trust

- Respect is an act of Humility and Confidence
- Entitlement is an attitude & worldview born of Selfishness and Arrogance
- Insecurities To violate a trust due to your own insecurities is to invite distrust and a poisonous culture. Personal insecurity is the mortal enemy of "trust"...

To "trust" is to risk loss... To fail to trust is to risk everything.

• Risk Management

- "Trust but Verify" Ronald Reagan
- "Can" v. "Should" "authorized" v. "right thing to do"
 - Wisdom, Discernment and Moral Judgments

Just because you can does not mean that you should.

• Further Benefits of Civility

- 1. Increased awareness will bring greater respect and consideration for all employees.
- 2. **Morale** will increase when everyone feels acknowledged, respected, and valued.
- 3. Employees will feel they truly have equal opportunities for advancement based on **competency** and **experience**.
- 4. **Productivity** will increase... better results & service will increase efficiencies; increased revenues will bring more resources and benefits for all employees.

- <u>Action Steps</u>
 - A. Policy
 - B. Training
 - C. Culture
 - i. Top-Down Commitment
 - ii. Core Value
 - iii. "We talk about it all the time..."

from Randy Pausch's *The Last Lecture*

- Have dignity, play fair, be charitable, and encourage creativity & enthusiasm.
- There is a skill set called "leadership." (He) knew how to delegate, had the passion to inspire and ... established the vision, the tone. He was in charge of morale... He knew what he didn't know, was perfectly willing to admit it and didn't want to leave until he understood."
- "The kind of people I want on my team are those who will help everyone else feel happy to be here."

• <u>Exhibit Understanding</u>

- People are difficult because they either have <u>too high</u> or <u>too low</u> an opinion of themselves.
- *Arrogance and/or insecurity* are the enemies of workplace civility.

You don't see things as they are. You see things as you are.

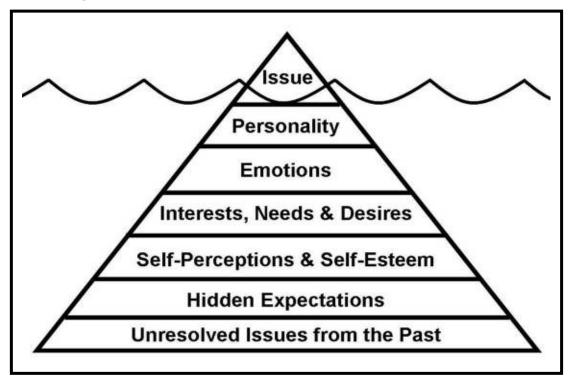

- The Talmud, Compilation of Jewish Oral Tradition, 5th Century A.D.

• Own the Change

Everyone cherishes the illusion that you can somehow force someone else and not do it yourself - which would be lovely but you can't.

- Miss Manners

The Iceberg of Conflict

Communicating Civility

- Remember pleasantries
- ➢ No interrupting
- Be open-minded
- Say what you mean
- Be aware of your tone and volume
- > Don't argue for the sake of arguing / PICK YOUR BATTLES
- Be respectful, even in disagreement
- Address conflicts in private when possible
- Be aware of your own defensiveness
- De-personalize your comments
- Avoid accusations / ask questions instead
- > Allow others to respond and give them your attention
- Consider that you could be wrong
- Use active listening skills

VII. Creating a Culture of Civility

• <u>Clearing the Air</u>

- > Appreciate
- Inquire
- Respond

• <u>A Culture of Civility</u>

- Have a cooperative approach
- Be aware of underlying needs
- Recognize individual differences
- Be open to adapting position
- Leaders model civility for others
- Clearly define expectations for how employees are to treat each other
- Reward civil behavior
- Encourage stress management

Critical Elements

- Teamwork
- Collaboration
- Trust & Risk

If you can't bring yourself to risk and trust others, then it's just a matter of time until they will not trust you.

Once this happens, what happens to organizational loyalty?

Constructive Controversy

Open-minded discussion occurring within a strong cooperative context, of various perspectives that allows disagreement, exploration and adjustment

Think not those faithful who praise all thy words and actions, but those who kindly reprove thy faults. - Socrates

• <u>Parting Thoughts</u>

(that apply both personally & organizationally)

- This didn't happen overnight... and it won't be fixed overnight.
- Every major change takes place with one initial first step.
- Obstacles are what you see when you take your eye off the goal.
- You are either part of the solution, or part of the problem.

• Final Thoughts

- Don't wait for someone to be nice to you, and avoid "keeping score"...
- Don't be afraid to put yourself in "Time Out" so you can 'cool off' before expressing yourself.
- Consider letting some things slide, especially slights that you know to be unintentional.
- The biggest risk for your organization is not creating a culture of anger & incivility, but rather creating a "<u>culture of indifference</u>."

You must <u>be</u> the change you want to see in the world.

- Mahatma Gandhi

Productive Workplace: Professionalism, Civility and Conflict Resolution

Verbal or physical conduct by any employee that harasses, disrupts, or interferes with another's work performance or that creates an intimidating, offensive, or hostile environment will not be tolerated.

Employees are expected to maintain a productive work environment free from harassing or disruptive activity including threats of physical violence. Behaviors that insult, belittle, demean, disparage, aggravate, humiliate, embarrass, and/or injure the dignity of another person are considered harassing behaviors. No form of harassment will be tolerated, including sexual harassment and harassment based on race, national origin, religion, disability, pregnancy, age, military status, sex or other protected category, as provided by law. Further, employees are expected to exemplify professionalism and civility at all times when representing <u>(city or agency)</u> in their interaction and discourse with fellow staff members, other representatives of the organization, and the general public.

The <u>(city or agency)</u> recognizes that conflicts and disagreements will occur, therefore, employees are expected to participate in a professional conflict resolution process whenever conflicts or potential adversarial situations arise. This conflict resolution process should include the following:

When seeking to resolve conflict with another:

Be professional, polite, courteous, and respectful

Listen to what others have to say

- Take into consideration that you may be wrong
- Be positive and suggest ways that the situation may improve
- Be willing to sincerely apologize if you have said or done anything that may have offended the other person
- Understand that if the issue can't be resolved, you can always take your concerns to your immediate supervisor, department head, or human resources office
